

Recent Initiatives - CNLU Connect Campus Program

The Connect Campus is a unique step towards the sustainable corporate world. As we know, there is a plethora of knowledge in the corporate world & every day the sector is attracting new talent, but somewhere we are lacking i.e. values, ethics and morals. The round table is an attempt to create value based professionals & to bring into the picture, actual scene of responsibilities, duties, obligations, etc., owed by the corporate organizations towards the society. In the recent years, the 'Corporate Entity' has become the most vibrant and dominating sector in the commercial world, gaining significance for its dynamic nature and multidimensional approach.

The boundaries of the Legislative Framework are expanding day by day. In these circumstances, at times even professionals are finding it difficult to keep pace with such changes. This positive step will bridge a gap between the corporate sector and social sector. This platform so developed is to ignite the idea and desire of professionals, young students, emerging entrepreneurs, corporate leaders to contribute in the field of corporate & commercial laws in the guise of education & research alongside the intellectual response & mentorship of Corporate & Legal Luminaries. The idea of this round table was mooted with the vision to “To Explore Corporate Literacy”.

The initiative will bring together the eminent corporate personalities, legal luminaries, industry experts, leaders, keynote speakers, etc. from around the whole country, to bring positive impact on the corporate world.

Phase I

The team connect campus successfully conducted Phase I in an association with Argus Partners & Cyril Amarchand Mangaldas.
