## **GREENGUARD Certification**

- GREENGUARD Certification is the first voluntary North American product emissions certification created specifically for commercial building products. This certification verifies that products meet stringent chemical emission limits originally developed as purchasing specifications for commercial building products for the U.S. Environmental Protection Agency (EPA) the State of Washington. GREENGUARD Certified products are compliant with stringent emission levels for over 360 VOCs, plus a limit on the total of all chemical emissions combined (TVOC). Furniture products that are GREENGUARD Certified are also compliant with the BIFMA X 7.1 standard.
- GREENGUARD Certification Program tests building materials, furnishings, furniture, etc. for chemical emissions (VOCs, formaldehyde, etc.) by applying Dynamic Environmental Chambers. GREENGUARD certified products can be searched in SPOT (the UL sustainable product database) and will not pollute indoor air quality.

## **AIOTA Certification for Ergonomically Designed Products**

1. AIOTA Certification for Ergonomic Suitability of the Ranges of Furniture is applicable for the Original Furniture Manufacturing Industries only.
2. AIOTA certification will specifically be for the Ergonomic Suitability, Safety and Comfort for the users.
3. Registration with AIOTA is mandatory for all industries desiring to certify the ranges of furniture being manufactured. It is necessary to submit the duly filled prescribed Request Form for Registration. The Request Form may be downloaded from AIOTA Website.
4. AIOTA Certification for Ergonomic Suitability of the Ranges of Furniture is provided only on the recommendation of designated Inspection Committee comprising of a minimum of two members after completion of the requisite procedures of inspection in accordance with Certification Guidelines

## **BIFMA e3-2008 Standards**

The BIFMA e3-2008 business and institutional furniture sustainability standard is the first fully transparent, multi-attribute furniture sustainability standard addressing material utilization, energy and atmosphere impacts, human and ecosystem health and social responsibility. Manufacturers evaluating products to the BIFMA e3 sustainability standard and undergoing an independent, third-party certification process can achieve the level™ conformance mark. It gives manufacturers a methodology to present the environmental characteristics of their products in a clear, easily understood manner and allows customers to make informed choices about commercial furniture that exceed single attribute eco-certifications
